

Associate and Supporting Members Directory

September 2017

About WWPI

Western Wood Preservers Institute has represented the interests of the preserved wood products industry throughout western North America for 70 years.

The membership consists of companies that either manufacture products, are directly affiliated or provide a service to the preserved wood industry. The primary activity areas of WWPI include regulatory and market outreach programs aimed at sustaining a viable western North America preserved wood industry.

WWPI is supported by dues paid by its treater members, as well as Associate and Supporting members.

About Associate Membership

Companies directly affiliated with the wood treating industry through supplying preservatives, stains and other coatings as well as those supplying raw materials such as poles, pilings and lumber are eligible for Associate Membership.

About Supporting Membership

Companies providing services or deriving benefits from the wood treating industry are eligible to become WWPI Supporting Members.

This includes, but is not limited to: inspection agencies, building material dealers and wholesalers, consulting firms, engineering and design companies, instrument makers, transportation companies, fastener manufacturers, service companies, associations, trade organizations and others doing business with the wood treating industry.

Becoming an Associate or Supporting Member

Contact WWPI at info@wwpinstitute.org to receive an application for Associate or Supporting Membership. Each application will be considered by the WWPI Board of Directors during one of its three yearly meetings.

Companies who are approved as Associate or Supporting Members may use the membership WWPI logo in company materials, websites and marketing materials. Contact Butch Bernhardt at WWPI (butch@preservedwood.org) for camera-ready logos and/or digital files.

Associate Members

Bridgewell Resources

Tigard, OR

800-481-3426

Contact: Matt Keyser

www.bridgewellresources.com

Email: mkeyser@bridgewellres.com

Bridgewell Resources is a diversified distribution company with the financial strength to ensure customers a lasting relationship. The Utility & Construction Division distributes treated wood products ranging from utility poles and rail ties to foundation pilings, timbers and signposts. Inventory is available for immediate shipment from many strategically-located distribution centers.

Chemonite Council

Atlanta, GA

678-627-2265

Contact: Grady Brafford

www.chemonite.com

Email: grady.brafford@lonza.com

Members of the Chemonite Council manufacture wood products treated with Chemonite ACZA waterborne preservatives for use in industrial, utility, marine, railroad and heavy construction applications. Demonstrated by over 30 years of commercial use, Chemonite preservatives provide long term protection against fungal and termite damage for piling, poles, posts, and sawn wood products. Council members produce Chemonite ACZA treated wood in accordance with AWWA Standards and WWPI's Best Management Practices.

Eco Chemical Inc

Seattle, WA

800-677-7930

Contact: Mark Cheirrett

www.ecochemical.com

Email: mark@ecochemical.com

Eco Chemical has served the preserved wood industry for over 20 years, providing waterborne, low-VOC stains tailored to our customer's individual manufacturing processes and markets. We function as our customers' coating consultants. Our state-of-the-art research lab is always alert for new developments in coating chemistry to ensure our customers receive the best possible product at the lowest possible operational and environmental cost. We also offer our customers the opportunity to private-label their choice of stain products.

KMG Chemicals, Inc.

Fort Worth, TX
(817) 761-6100

Contact: Michael Hoffman

www.kmgchemicals.com

Email: mhoffman@kmgchemicals.com

KMG is the premier supplier of the heavy duty, industrial wood preservative pentachlorophenol. The superior performance and beneficial attributes of penta have made it the preferred choice by most leading power generation and telecommunication companies to protect their wood utility poles and crossarms. KMG is a proud participant in the American Chemistry Council's Responsible Care Initiative and only offers products that can be manufactured, transported, used and disposed of or recycled in an environmentally sound manner.

Kop-Coat, Inc.

Pittsburgh, PA
360-430-0149

Contact: Kip Burns

www.kop-coat.com

Email: kburns@kop-coat.com

Kop-Coat offers TRU-CORE, Woodlife, and "Solutions for Bright Lumber" programs for forest products and wood treatment to provide the highest protection to wood products in North America. Patented technologies provide protection against termites, decay, mold, stain, and weather damage. TRU-CORE Process wood penetration technology is now used to protect many wood products "in the home", "on the home", "around the home", and for "Industrial" uses. Kop-Coat develops custom programs to penetrate Western wood species with standard preservatives.

Koppers Performance Chemicals

Griffin, GA
303-475-7050

Contact: Mark Blattie

www.kopperspc.com

Email: blattiemp@kopperspc.com

Koppers Performance Chemicals is the leading global supplier of wood preservatives and fire retardants. Manufacturer of NatureWood, NatureWood CA, MicroPro, NexWood (PTI), AdvanceGuard and HiBOR wood preservatives. Manufacturer of FirePRO interior fire retardant. Manufacturer of water repellent additives, color additives and mold inhibitors.

Lonza Wood Protection

Atlanta, GA
404-279-6861

Contact: Eric Lummus

www.wolmanizedwood.com

Email: Eric.lummus@lonza.com

Arch Wood Protection is a global leader in the development and supply of innovative technologies for the treatment of wood. Arch's technologies improve the performance of wood products, making them resistant to termites, fungi, fire, mold and moisture. Arch manufactures and supplies many of the highest quality and well-known wood protection products, including its Wolman line of preservatives, Sillbor borate treatments, Chemonite ACZA industrial preservatives, Dricon fire retardants, FrameGuard and Wolman non-pressure mold inhibition and preservative products and the Diacon Mycostat and Antiblul antisapstain lines. With global operations and an expansive offering of services and expertise, Arch is dedicated to the success of its customers.

Nisus Corporation

Rockford, TN
520-631-1084

Contact: Ken Laughlin

www.nisuscorp.com

Email: kenl@nisuscorp.com

Nisus manufactures AWWPA standardized, non-restricted use wood preservatives. QNAP 8 Copper Naphthenate is an oil-borne preservative with proven performance and superior environmental profile. QNAP2 is an end-cut and field-cut treatment product. Cellu-Treat Liquid Borate DOT is used in pressure or dip treatments to prevent decay during air seasoning. Cellu-Treat is used in dual treatment protocols or with BTX Drill and Inject method. All products are used for utility poles, pilings, crossties, and bridge ties and timbers.

Ruetgers Canada, Inc.

Hamilton, ONT
905-544-2891

Contact: Gord Gilmet

www.ruetgers-group.com

Email: gord.gilmet@raincarbon.com

The RÜTGERS Group, which includes Ruetgers Canada, has been a leading supplier of AWWPA-standard creosote products to North America for over 100 years and produces specialty grade creosotes for applications required to meet demanding environmental standards. We supply AWWPA P1/P13 and P2 creosote products direct to North America through our global logistics network that consists of deep-sea vessels, railcars, tanker trucks, intermediate bulk containers and a marine distribution terminal in the Gulf area.

Safer Building Solutions

Clarksburg, CA
916-696-6862

Contact: Bill Hendricks

www.saferbuildingsolutions.com

Email: bill@saferbuilding.us

Safer Building Solutions is a marketing and customer service company that represents manufacturers of exterior fire resistant wood and wood related products.

Troy Corp.

Florham Park, NJ
973-723-4149

Contact: Geoff Webb

www.troycorp.com

Email: webb@troycorp.com

Contact: Brian Delbrueck

www.treatedwood.com

Email: bdelbrueck@viance.net

Viance provides an extensive range of advanced wood treatment technologies and services to the global wood preservation industry. With expertise in wood biocides and wood protection chemicals, Viance is an industry leader in the development of advanced greener building material solutions that improve the performance and durability of wood and wood products. Viance's line of Above Ground and Ground Contact outdoor wood treatment solutions are American Wood Protection Association (AWPA) standardized, as is our D-Blaze fire retardant for commercial and residential applications. Our brands include : Ecolife, Preserve ACQ, Preserve CA , D-Blaze, TimberSaver PT and DesignWood.

Supporting Members

Alamon Utility Services

www.alamon.com

Kalispell, MT
800-252-8838

Contact: Eric Shelton

Email: eric@alamon.com

Founded in 1975, Alamon, Inc. is a privately held contracting firm that provides skilled labor to Power and Telecommunications companies across the United States. We are committed to a standard of quality that produces customer satisfaction at an affordable price. Utility Services: pole and structure inspection & maintenance, full ground line inspection services with remedial treatments, with options that include the latest in non-destructive resistograph technology.

American Wood Technology, LLC

www.americanwoodtechnology.com

Suwanee, GA
877-785-0274

Contact: Claus Staalner

Email: staalner@mindspring.com

AWT offers unique and profitable equipment and service solutions, unsurpassed by our competition, to our secondary woodworking manufacturing customer base in North America.

Ametek Process Instruments

www.ametekpi.com

Pittsburgh, PA
412-826-2446

Contact: Rich Shehab

Email: rich.shehab@ametek.com

Ametek Process Instruments manufactures the Asoma Phoenix II XRF Wood Analyzer used by many wood treating solutions and wood treating companies. It offers a fast and precise analysis technique for the measurement of metals in wood treating chemicals and treated wood. Examples of the Asoma Phoenix II XRF Analyzer include the detection of Chromated Copper Arsenate (CCA), Copper Azole (CA) and Alkaline Copper Quaternary (ACQ) in typically less than two minutes with a high degree of accuracy and precision (i.e. 1% copper $\pm 0.006\%$).

Analytical Laboratory Group, Inc.

Eugene, OR
541-485-8404

Contact: Dennis Morgan

Email: dennism@alglabsinc.com

ALG provides environmental water and storm water analysis services to treated wood facilities, helping them to meet local, state and federal regulations.

AquaAeTer
Centennial, CO
303-771-9150

www.aquaeter.com

Contact: Chris Bolin

Email: cbolin@aquaeter.com

AquaAeTer assists our wood treating industry clients with: Permitting and compliance - NPDES and stormwater, Subpart W drip pad certification; facility operations - compliance review, pre-acquisition assessments, waste management consulting; RCRA/CERCLA compliance - site investigation, air, water & soil sampling, monitoring & reporting, voluntary clean-up programs, soil & groundwater remediation, human health and ecological risk assessments, facility closure or re-use; industrial wastewater - system evaluation and optimization, design reviews, upgrades & retrofits, system troubleshooting, nutrient removal, and discharge monitoring.
